CONVERSATION WINDOW
CHAT
chat
Thorton: Hi
Anju: Hi~
Thorton: I'm getting 2 different replies, so... are the connectors on laptop hard drives standardised, or do they vary from one make to another?
Anju: Connectors are standardised but every laptop makes it different in shape except the pins
Cosgrove: The hard drives are the same. The difference is what's called the caddy if you are upgrading or replacing the drive, just take the old drive out of the caddy and put the new one in it.
